

兔抗 CD8A 多克隆抗体

中文名称：兔抗 CD8A 多克隆抗体

英文名称： Anti-CD8A rabbit polyclonal antibody

别名： CD8a molecule; CD8; MAL; p32; Leu2

相关类别： 一抗

储存： 冷冻（-20℃）

宿主： Rabbit

抗原： CD8A

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

The CD8 antigen is a cell surface glycoprotein found on most cytotoxic T lymphocytes that mediates efficient cell-cell interactions within the immune system. The CD8 antigen acts as a coreceptor with the T-cell receptor on the T lymphocyte to recognize antigens displayed by an antigen presenting cell in the context of class I MHC molecules. The coreceptor functions as either a homodimer composed of two alpha chains or as a heterodimer composed of one alpha and one beta chain. Both alpha and beta chains share significant homology to immunoglobulin variable light chains. This gene encodes the CD8 alpha c

	hain. Multiple transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	CD8A
Immunogen:	Synthetic peptide of human CD8A
Full name:	CD8a molecule
Synonyms:	CD8; MAL; p32; Leu2
SwissProt:	P01732
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human prostate cancer
IHC Recommend dilution:	50-300
