

小鼠抗 XIAP 单克隆抗体

- 中文名称： 小鼠抗 XIAP 单克隆抗体
- 英文名称： Anti-XIAP mouse monoclonal antibody
- 相关类别： 一抗
- 储 存： 冷冻（-20℃）
- 宿 主： Mouse
- 抗 原： XIAP
- 反应种属： Human
- 标 记 物： Unconjugate
- 克隆类型： mouse monoclonal

技术规格

Background:	This gene encodes a protein that belongs to a family of a poptotic suppressor proteins. Members of this family share a conserved motif termed, baculovirus IAP repeat, which is necessary for their anti-apoptotic function. This protein functions through binding to tumor necrosis factor receptor-associated factors TRAF1 and TRAF2 and inhibits apoptosis induced by menadione, a potent inducer of free radicals, and interleukin 1-beta converting enzyme. This protein also inhibits at least two members of the caspase family of cell-death proteases, caspase-3 and caspase-7. Mutations in this gene are the cause of X-linked lymphoproliferative syndrome. Alternate splicing results in multiple transcript variants. Pseudogenes of this gene are found on chromosomes 2 and 11.
Applications:	ELISA, WB

Name of antibody:	XIAP
Immunogen:	Fusion protein of human XIAP
Full name:	X-linked inhibitor of apoptosis
Synonyms:	API3; ILP1; MIHA; XLP2; BIRC4; IAP-3; hIAP3; hIAP-3
SwissProt:	P98170
WB Predicted band size:	57 kDa
WB Positive control:	HEK293 whole cell lysate
WB Recommended dilution:	500-2000
