

Anti-VPREB3 antibody

 Cat. No.
 ml224114

 Package
 25 μl/100 μl/200 μl

 Storage
 -20°C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Product overview Description Applications Immunogen Reactivity Content Host species Ig class Purification

Anti-VPREB3 rabbit polyclonal antibody ELISA, IHC Fusion protein of human VPREB3 Human 0.6 mg/ml Rabbit Immunogen-specific rabbit IgG Antigen affinity purification

Target information Symbol Full name Synonyms Swissprot

VPREB3 pre-B lymphocyte 3 8HS20; N27C7-2 Q9UKI3

Target Background

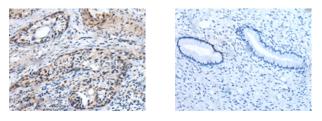

The protein encoded by this gene is the human ortholog of the mouse VpreB3 (8HS20) protein, is thought to be involved in B-cell maturation, and may play a role in assembly of the pre-B cell receptor (pre-BCR). While the role of this protein in B-cell development has not yet been elucidated, studies with the chicken ortholog of this protein have found that when overexpressed, this protein localizes to the endoplasmic reticulum. The mouse ortholog of this protein has been shown to associate with membrane mu heavy chains early in the course of pre-B cell receptor biosynthesis. Expression of this gene has been observed in some lymphomas.

Applications Immunohistochemistry

Predicted cell location: Cytoplasm Positive control: Human cervical cancer Recommended dilution: 25-100

The image on the left is immunohistochemistry of paraffin-embedded Human cervical cancer tissue using ml224114(VPREB3 Antibody) at dilution 1/35, on the right is treated with fusion protein. (Original magnification: ×200)

ELISA

Recommended dilution: 5000-10000
