

## Anti-CRH antibody

 Cat. No.
 ml260209

 Package
 25 μl/100 μl/200 μl

 Storage
 -20°C, pH7.4 PBS, 0.05% NaN3, 40% Glycerol

Product overview	
	Anti CDU rabbit nabuslanal antibadu
Description	Anti-CRH rabbit polyclonal antibody
Applications	ELISA, IHC
Immunogen	Synthetic peptide of human CRH
Reactivity	Human, Mouse, Rat
Content	0.2 mg/ml
Host species	Rabbit
lg class	Immunogen-specific rabbit IgG
Purification	Antigen affinity purification
Target information	
Symbol	CRH
Full name	corticotropin releasing hormone

CRF

P06850

Target Background

Synonyms

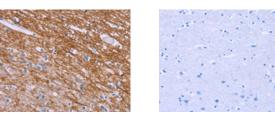

Swissprot

Corticotropin-releasing hormone is secreted by the paraventricular nucleus (PVN) of the hypothalamus in response to stress. Marked reduction in this protein has been observed in association with Alzheimer disease and autosomal recessive hypothalamic corticotropin deficiency has multiple and potentially fatal metabolic consequences including hypoglycemia and hepatitis. In addition to production in the hypothalamus, this protein is also synthesized in peripheral tissues, such as T lymphocytes and is highly expressed in the placenta. In the placenta it is a marker that determines the length of gestation and the timing of parturition and delivery.
