

Anti-GZMH antibody

Cat. No.	ml162901
Package	25 µl/100 µl/200 µl
Storage	-20°C, pH7.4 PBS, 0.05% NaN ₃ , 40% Glycerol

Product overview

Description	Anti-GZMH rabbit polyclonal antibody
Applications	ELISA, WB
Immunogen	Synthetic peptide of human GZMH
Reactivity	Human, Mouse
Content	0.4 mg/ml
Host species	Rabbit
Ig class	Immunogen-specific rabbit IgG
Purification	Antigen affinity purification

Target information

Symbol	GZMH
Full name	granzyme H
Synonyms	CCP-X; CGL-2; CSP-C; CTLA1; CTSG2
Swissprot	P20718

Target Background

This gene encodes a member of the peptidase S1 family of serine proteases. Alternative splicing results in multiple transcript variants, at least one of which encodes a preproprotein that is proteolytically processed to generate a chymotrypsin-like protease. This protein is reported to be constitutively expressed in the NK (natural killer) cells of the immune system and may play a role in the cytotoxic arm of the innate immune response by inducing target cell death and by directly cleaving substrates in pathogen-infected cells. This gene is present in a gene cluster with another member of the granzyme subfamily on chromosome 14.

Applications

Western blotting

Predicted band size:27 kDa

Positive control:SP20 cell lysate

Recommended dilution: 200-1000

Gel: 12%SDS-PAGE

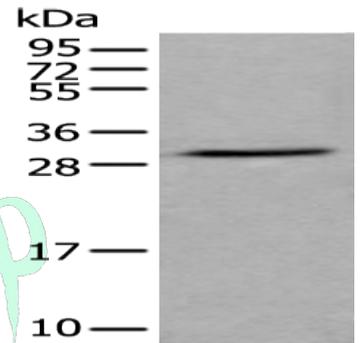

Lysate: 40 μ g

Lane: SP20 cell lysate

Primary antibody: ml162901(GZMH Antibody) at dilution 1/200

Secondary antibody: Goat anti rabbit IgG at 1/8000 dilution

Exposure time: 2 minutes

ELISA

Recommended dilution:5000-10000
