

兔抗 AADACL2 多克隆抗体

中文名称：兔抗 AADACL2 多克隆抗体

英文名称：Anti-AADACL2 rabbit polyclonal antibody

储 存： 冷冻（-20℃）

抗 原： AADACL2

宿 主： Rabbit

相关类别： 一抗

反应种属： Human

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

AADAC is a 45 kDa membrane-associated hydrolase highly expressed in the human liver that has been implicated in the hydrolysis of arylacetamide xenobiotics including flutamide and phenacetin. AADAC is highly homologous to several related lipases, AADACL1, 2, and 4, the latter two of which remain completely unannotated. Overexpression of AADAC in a rat hepatoma cell line produces changes in cellular TG levels, apolipoprotein B secretion, and fatty acid oxidation, but the mechanism for these effects remains unclear. Candidate endogenous substrates, selective inhibitors, or knockout mice have not, to our knowledge, been described for AADAC or the related enzymes.

	AADACL2 and AADACL4.
Applications:	ELISA, IHC
Name of antibody:	AADACL2
Immunogen:	Fusion protein of human AADACL2
Full name:	arylacetamide deacetylase-like 2
SwissProt:	Q6P093
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human cervical cancer and human thyroid cancer
IHC Recommend dilution:	25-100
