

兔抗 ACIN1 多克隆抗体

中文名称：兔抗 ACIN1 多克隆抗体

英文名称：Anti-ACIN1 rabbit polyclonal antibody

别名：ACN; ACINUS; fSAP152

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：ACIN1

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

Apoptosis is defined by several morphologic nuclear changes, including chromatin condensation and nuclear fragmentation. This gene encodes a nuclear protein that induces apoptotic chromatin condensation after activation by caspase-3, without inducing DNA fragmentation. This protein has also been shown to be a component of a splicing-dependent multiprotein exon junction complex (EJC) that is deposited at splice junctions on mRNAs, as a consequence of pre-mRNA splicing. It may thus be involved in mRNA metabolism asso

	ciated with splicing. Alternatively spliced transcript variants encoding different isoforms have been described for this gene.
Applications:	ELISA, IHC
Name of antibody:	ACIN1
Immunogen:	Synthetic peptide of human ACIN1
Full name:	apoptotic chromatin condensation inducer 1
Synonyms :	ACN; ACINUS; fSAP152
SwissProt:	Q9UKV3
ELISA Recommended dilution:	2000-10000
IHC positive control:	Human liver cancer and Human esophagus cancer
IHC Recommend dilution:	100-300
