

## 兔抗 ACRBP 多克隆抗体

中文名称：兔抗 ACRBP 多克隆抗体

英文名称：Anti-ACRBP rabbit polyclonal antibody

别 名：CT23; SP32; OY-TES-1

相关类别：一抗

储 存：冷冻（-20℃）避光

抗 原：ACRBP

宿 主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：Unconjugate

### 技术规格

#### Background:

The protein encoded by this gene is similar to proacrosin binding protein sp32 precursor found in mouse, guinea pig, and pig. This protein is located in the sperm acrosome and is thought to function as a binding protein to proacrosin for packaging and condensation of the acrosin zymogen in the acrosomal matrix. This protein is a member of the cancer/testis family of antigens and it is found to be immunogenic. In normal tissues, this mRNA is expressed only in testis, whereas it is detected in a range of different tumor types such as bladder, breast, lung, liver, and colon.

<b>Applications:</b>	WB
<b>Name of antibody:</b>	ACRBP
<b>Immunogen:</b>	Synthesized peptide derived from internal of human A CRBP.
<b>Full name:</b>	acrosin binding protein
<b>Synonyms :</b>	CT23; SP32; OY-TES-1
<b>SwissProt:</b>	Q8NEB7
<b>WB Predicted band size:</b>	61 kDa
<b>WB Positive control:</b>	293 cells, HepG2 cells and Jurkat cells lysates
<b>WB Recommended dilution:</b>	500-3000
