

兔抗 ADNP 多克隆抗体

中文名称：兔抗 ADNP 多克隆抗体

英文名称：Anti-ADNP rabbit polyclonal antibody

别名：ADNP1

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：ADNP

反应种属：Human, Mouse, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Vasoactive intestinal peptide is a neuroprotective factor that has a stimulatory effect on the growth of some tumor cells and an inhibitory effect on others. This gene encodes a protein that is upregulated by vasoactive intestinal peptide and may be involved in its stimulatory effect on certain tumor cells. The encoded protein contains one homeobox and nine zinc finger domains, suggesting that it functions as a transcription factor. This gene is also upregulated in normal proliferative tissues. Finally, the encoded protein may increase the viability of certain cell types through modulation of p53 activity. Alternatively spliced tr
--------------------	--

	anscript variants encoding the same protein have been d escribed.
Applications:	ELISA, IHC
Name of antibody:	ADNP
Immunogen:	Synthetic peptide of human ADNP
Full name:	activity-dependent neuroprotector homeobox
Synonyms :	ADNP1
SwissProt:	Q9H2P0
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human esophagus cancer and Human thyroid cancer
IHC Recommend dilution:	15-50
