

兔抗 CHKA 多克隆抗体

中文名称: 兔抗 CHKA 多克隆抗体

英文名称: Anti-CHKA rabbit polyclonal antibody

别 名: choline kinase alpha; CK; EK; CHK; CKI

相关类别: 一抗

抗 原: CHKA

储 存: 冷冻 (-20°C)

宿 主: Rabbit

反应种属: Human

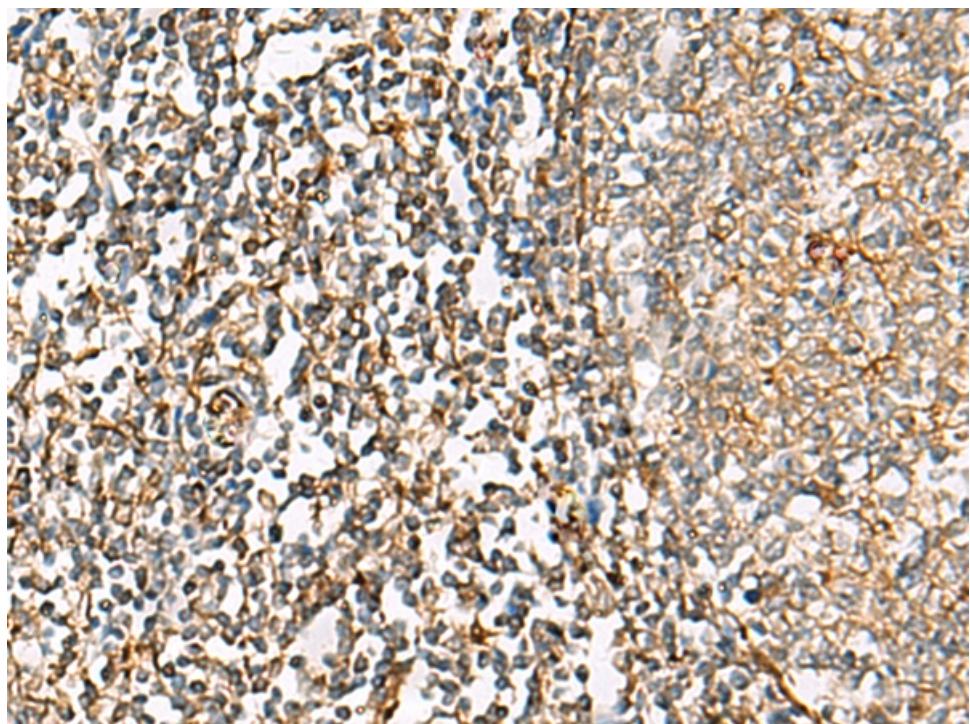

标 记 物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	The major pathway for the biosynthesis of phosphatidylcholine occurs via the CDP-choline pathway. The protein encoded by this gene is the initial enzyme in the sequence and may play a regulatory role. The encoded protein also catalyzes the phosphorylation of ethanolamine. Two transcript variants encoding different isoforms have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	CHKA
Immunogen:	Synthetic peptide of human CHKA
Full name:	choline kinase alpha

Synonyms:	CK; EK; CHK; CKI
SwissProt:	P35790
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer and Human tonsil
IHC Recommend dilution:	50-100
