

兔抗 CLK4 多克隆抗体

中文名称：兔抗 CLK4 多克隆抗体

英文名称：Anti-CLK4 rabbit polyclonal antibody

别 名：CDC like kinase 4

抗 原：CLK4

储 存：冷冻（-20℃）

宿 主：Rabbit

反应种属：Human, Mouse

相关类别：一抗

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene belongs to the CDC2-like protein kinase (CLK) family. This protein kinase can interact with and phosphorylate the serine- and arginine-rich (SR) proteins, which are known to play an important role in the formation of spliceosomes, and thus may be involved in the regulation of alternative splicing. Studies in the Israeli sand rat *Psammomys obesus* suggested that the ubiquitin-like 5 (UBL5/BEACON), a highly conserved ubiquitin-like protein, may interact with and regulate the activity of this kinase. Multiple alternatively spliced transcript variants have been observed, but the

	full-length natures of which have not yet been determined.
Applications:	ELISA, IHC
Name of antibody:	CLK4
Immunogen:	Fusion protein of human CLK4
Full name:	CDC like kinase 4
SwissProt:	Q9HAZ1
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human breast cancer and Human thyroid cancer
IHC Recommend dilution:	150-300
