

兔抗 CRH 多克隆抗体

中文名称: 兔抗 CRH 多克隆抗体

英文名称: Anti-CRH rabbit polyclonal antibody

别 名: CRF

相关类别: 一抗

储 存: 冷冻(-20℃)

宿 主: Rabbit

抗 原: CRH

反应种属: Human, Mouse, Rat

标 记 物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:

Corticotropin-releasing hormone is secreted by the paraventricular nucleus (PVN) of the hypothalamus in response to stress. Marked reduction in this protein has been observed in association with Alzheimer disease and autosomal recessive hypothalamic corticotropin deficiency has multiple and potentially fatal metabolic consequences including hypoglycemia and hepatitis. In addition to production in the hypothalamus, this protein is also synthesized in peripheral tissues, such as T lymphocytes and is highly expressed in the placenta. In the placenta it is a marker that determines the length of gestation and the timing of par

|------------------------------------|---------------------------------|
| Applications: | ELISA, IHC |
| Name of antibody: | CRH |
| Immunogen: | Synthetic peptide of human CRH |
| Full name: | corticotropin releasing hormone |
| Synonyms: | CRF |
| SwissProt: | P06850 |
| ELISA Recommended dilution: | 1000-2000 |
| IHC positive control: | Human brain |
| IHC Recommend dilution: | 25-100 |
