

兔抗 BAD 多克隆抗体

中文名称：兔抗 BAD 多克隆抗体

英文名称：Anti-BAD rabbit polyclonal antibody

别名：BBC2; BCL2L8

相关类别：一抗

抗原：BAD

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is a member of the BCL-2 family. BCL-2 family members are known to be regulators of programmed cell death. This protein positively regulates cell apoptosis by forming heterodimers with BCL-xL and BCL-2, and reversing their death repressor activity. Proapoptotic activity of this protein is regulated through its phosphorylation. Protein kinases AKT and MAP kinase, as well as protein phosphatase calcineurin were found to be involved in the regulation of this protein. Alternative splicing of this gene results in two transcript variants which encode the same isoform.

Applications:	ELISA, IHC
Name of antibody:	BAD
Immunogen:	Fusion protein of human BAD
Full name:	BCL2-associated agonist of cell death
Synonyms :	BBC2; BCL2L8
SwissProt:	Q92934
ELISA Recommended dilution:	1000-5000
IHC positive control:	Human colon cancer and Human esophagus cancer
IHC Recommend dilution:	50-200
