

## 兔抗 C15orf40 多克隆抗体

中文名称：兔抗 C15orf40 多克隆抗体

英文名称：Anti-C15orf40 rabbit polyclonal antibody

相关类别：一抗

储 存：冷冻（-20℃）

宿 主：Rabbit

抗 原：C15orf40

反应种属：Human

标 记 物：Unconjugate

克隆类型：rabbit polyclonal

### 技术规格

#### Background:

Encoding more than 700 genes, chromosome 15 is made up of approximately 106 million base pairs and is about 3% of the human genome. Angelman and Prader-Willi syndromes are associated with loss of function or deletion of genes in the 15q11-q13 region. In the case of Angelman syndrome, this loss is due to inactivity of the maternal 15q11-q13 encoded UBE3A gene in the brain by either chromosomal deletion or mutation. In cases of Prader-Willi syndrome, there is a partial or complete deletion of this region from the paternal copy of chromosome 15. Tay-Sachs disease is a lethal disorder associated with mutations of the HEXA gene, which is encoded by

	chromosome 15. Marfan syndrome is associated with chromosome 15 through the FBN1 gene. The C15orf40 gene product has been provisionally designated C15orf40 pending further characterization.
<b>Applications:</b>	ELISA, WB, IHC
<b>Name of antibody:</b>	C15orf40
<b>Immunogen:</b>	Fusion protein of human C15orf40
<b>Full name:</b>	chromosome 15 open reading frame 40
<b>SwissProt:</b>	Q8WUR7
<b>ELISA Recommended dilution:</b>	5000-10000
<b>IHC positive control:</b>	Human brain
<b>IHC Recommend dilution:</b>	25-100
<b>WB Predicted band size:</b>	16 kDa
<b>WB Positive control:</b>	Human heart tissue lysate
<b>WB Recommended dilution:</b>	500-2000
