

兔抗 EDARADD 多克隆抗体

中文名称：兔抗 EDARADD 多克隆抗体

英文名称：Anti-EDARADD rabbit polyclonal antibody

别名：ED3; EDA3; ECTD11A; ECTD11B

储存：冷冻（-20℃）

抗原：EDARADD

宿主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

相关类别：一抗

技术规格

Background:

This gene was identified by its association with ectodermal dysplasia, a genetic disorder characterized by defective development of hair, teeth, and eccrine sweat glands. The protein encoded by this gene is a death domain-containing protein, and is found to interact with EDAR, a death domain receptor known to be required for the development of hair, teeth and other ectodermal derivatives. This protein and EDAR are coexpressed in epithelial cells during the formation of hair follicles and teeth. Through its interaction with EDAR, this protein acts as an adaptor, and links the receptor to downstream si

	gnaling pathways. Two alternatively spliced transcript variants of this gene encoding distinct isoforms have been reported.
Applications:	ELISA, IHC
Name of antibody:	EDARADD
Immunogen:	Full length fusion protein
Full name:	EDAR-associated death domain
Synonyms:	ED3; EDA3; ECTD11A; ECTD11B
SwissProt:	Q8WWZ3
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human tonsil
IHC Recommend dilution:	35-200
