

兔抗 FBXW7 多克隆抗体

中文名称：兔抗 FBXW7 多克隆抗体

英文名称：Anti-FBXW7 rabbit polyclonal antibody

别名：AGO; CDC4; FBW6; FBW7; hAgo; FBX30; FBXW6; SEL10; hCdc4; FBXO30; SEL-10

相关类别：一抗

抗原：FBXW7

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a member of the F-box protein family which is characterized by an approximately 40 amino acid motif, the F-box. The F-box proteins constitute one of the four subunits of ubiquitin protein ligase complex called SCFs (SKP1-cullin-F-box), which function in phosphorylation-dependent ubiquitination. The F-box proteins are divided into 3 classes: Fbws containing WD-40 domains, Fbls containing leucine-rich repeats, and Fbxs containing either different protein-protein interaction modules or no recognizable motifs. The protein encoded by this gene was previously referred to as F-box protein 1.
--------------------	---

	d to as FBX30, and belongs to the F-box class; in addition to an F-box, this protein contains 7 tandem WD 40 repeats.
Applications:	ELISA, IHC
Name of antibody:	FBXW7
Immunogen:	Fusion protein of human FBXW7
Full name:	F-box and WD repeat domain containing 7, E3 ubiquitin protein ligase
Synonyms :	AGO; CDC4; FBW6; FBW7; hAgo; FBX30; FBXW6; SEL10; hCdc4; FBXO30; SEL-10
SwissProt:	Q969H0
ELISA Recommended dilution:	2000-10000
IHC positive control:	Human cervical cancer and human thyroid cancer
IHC Recommend dilution:	100-300
