

兔抗 MMP1 多克隆抗体

中文名称：兔抗 MMP1 多克隆抗体

英文名称：Anti-MMP1 rabbit polyclonal antibody

别名：CLG; CLGN

相关类别：一抗

抗原：MMP1

储存：冷冻（-20℃）

宿主：Rabbit

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	Proteins of the matrix metalloproteinase (MMP) family are involved in the breakdown of extracellular matrix in normal physiological processes, such as embryonic development, reproduction, and tissue remodeling, as well as in disease processes, such as arthritis and metastasis. Most MMP's are secreted as inactive proproteins which are activated when cleaved by extracellular proteinases. This gene encodes a secreted enzyme which breaks down the interstitial collagens, types I, II, and III. The gene is part of a cluster of MMP genes which localize to chromosome 11q22.3. Alternative splicing results in multiple transcript variants.
Applications:	ELISA, IHC
Name of antibody:	MMP1

Immunogen:	Fusion protein of human MMP1
Full name:	matrix metalloproteinase 1 (interstitial collagenase)
Synonyms :	CLG; CLGN
SwissProt:	P03956
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human cervical cancer and human lung cancer
IHC Recommend dilution:	50-200
