

兔抗 MRPL22 多克隆抗体

- 中文名称: 兔抗 MRPL22 多克隆抗体
- 英文名称: Anti-MRPL22 rabbit polyclonal antibody
- 别 名: mitochondrial ribosomal protein L22; L22mt; RPML25; HSPC158; MRP-L22; MRP-L25
- 相关类别: 一抗
- 储存: 冷冻(-20℃)
- 宿 主: Rabbit
- 抗原: MRPL22
- 反应种属: Human, Mouse, Rat
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	Mammalian mitochondrial ribosomal proteins are encode d by nuclear genes and help in protein synthesis within the mitochondrion. Mitochondrial ribosomes (mitoriboso mes) consist of a small 28S subunit and a large 39S sub unit. They have an estimated 75% protein to rRNA com position compared to prokaryotic ribosomes, where this ratio is reversed. Another difference between mammalian mitoribosomes and prokaryotic ribosomes is that the latt er contain a 5S rRNA. Among different species, the prot eins comprising the mitoribosome differ greatly in seque
	eins comprising the mitoribosome differ greatly in seque

	nce, and sometimes in biochemical properties, which pre vents easy recognition by sequence homology. This gen e encodes a 39S subunit protein that belongs to the L2 2 ribosomal protein family. A pseudogene corresponding to this gene is found on chromosome 4q. Two transcrip t variants encoding different isoforms have been found f or this gene.
Applications:	ELISA, IHC
Name of antibody:	MRPL22
Immunogen:	Fusion protein of human MRPL22
Full name:	mitochondrial ribosomal protein L22
Synonyms:	L22mt; RPML25; HSPC158; MRP-L22; MRP-L25
SwissProt:	Q9NWU5
ELISA Recommended dilution:	5000-10000
IHC positive control:	Human liver cancer
IHC Recommend dilution:	50-200
