

兔抗 ZBED1 多克隆抗体

中文名称：兔抗 ZBED1 多克隆抗体

英文名称：Anti-ZBED1 rabbit polyclonal antibody

别名：zinc finger BED-type containing 1; ALTE; DREF; TRAMP; hDREF

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：ZBED1

反应种属：Human

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

This gene is located in the pseudoautosomal region 1 (PAR1) of X and Y chromosomes. It was earlier identified as a gene with similarity to Ac transposable elements, however, was found not to have transposase activity. Later studies show that this gene product is localized in the nucleus and functions as a transcription factor. It binds to DNA elements found in the promoter regions of several genes related to cell proliferation, such as histone H1, hence may have a role in regulating genes related to cell proliferation. Alternatively spliced transcript variants with different

	nt 5' untranslated region have been found for this gene.
Applications:	ELISA, IHC
Name of antibody:	ZBED1
Immunogen:	Fusion protein of human ZBED1
Full name:	zinc finger BED-type containing 1
Synonyms:	ALTE; DREF; TRAMP; hDREF
SwissProt:	O96006
ELISA Recommended dilution:	2000-5000
IHC positive control:	Human esophagus cancer
IHC Recommend dilution:	30-150
